PLUMAS CITY.

THIS flourishing town needs no puffing, for there can scarcely be one having been in California one month who is ignorant of the important stand Plumas is to take among her sister townships. Being located so immediately in the midst of the rich mines of Bear river, Dry creek, Rough and Ready, Gold river, Yuba and Deer creek. The rich diggings of the Bear river, just discovered, are within fourteen miles. To all these mines the roads are remarkably level, being over prairie land. The finest red brick clay is there in abundance, and timber to last for ages. Is situated on high land and beyond the possibility of overflow. Ninety-nine of the hundred who cross the plains this year will pass by Truckee river, and pass directly through Johnson's Rancho and Plumas City, where the richest soil and finest gazing land in the world is found. There is every inducement for traders to visit this town for the reason above named, and trade has taken an active start there, and already, although but five weeks since the first building was erected, there now are some twenty large frame buildings finished or nearly so, and occupied for merchandising, hotel, &c., as also as many tent houses.

For the information of those just arriving in the country, the subscribers would state that Plumas City is situated on the east banks of the Feather river, about two and a half miles below Rock Farm, but on the opposite side, and seven miles above Bear river. All the steamers of light draught can run to this point the year round, and without doubt must prove the head of steam navigation through the summer and fall months. In the winter and spring, sail vessels drawing ten to twelve feet water, have no difficulty in navigating as high up the river as Plumas, when close along the banks in front of the town all winter could be found 10 to 22 feet of water. There are already over two hundred persons interested in this town, and increasing daily. Teams and horses are in readiness always to convey miners and their goods into the interior, at the lowest rates. The subscribers have erected their storehouses, and are storing miners trunks and chests for 50 cents per month.

The proprietors are not anxious to sell to speculators, but to actual settlers, who will find liberal inducement.

San Francisco, May 22. cli

NOTICE—Trinidad City is situated on the left bank of the Sacramento, about 200 miles above Lawson's ranch, a short distance below the Red Bluffs, and by the new road, which leaves the Sacramento at Trinidad City, only 50 miles from the Trinity Diggings.

Steamboat navigation to the above point is now open, the Jack Hays having already made two successful trips with provisions, houses, lumber, &c, and as soon as well assorted stores are established, the whole supply for the Trinity mines will be derived from there.

At present, the nearest stores to Trinity Diggings are at Marysville, a distance of nearly 200 miles

The greater portion of the shares of this city having been disposed of, the different shareholders are hereby notified that the drawing of lots will take place in the town of Marysville, on Tuesday, the 4th of June next.

A few shares are still unsold, and may be had if applied for *immediately*.

DAILY PACIFIC NEWS.

J. WINCHESTER.....EDITOR.

Wednesday, May 29, 1850.

Mr. H. Chafee is the authorized collector of this establishment, assisted by Mr. B. E. Holland.

STEAMER EDITION.—Those wishing to have their advertisements appear in the steamer edition, are requested to leave them at the office as early as possible.—Terms for this edition are payment in advance.

Our Future.

That the Anglo-Saxon race are destined to be the rulers and law givers of the world, is no longer a problem. A high and glorious destiny awaits the people, if true to themselves--true to preserve and protect their institutions—to assert at all times the supremacy of the laws—to maintain those moral obligations which man owes to his fellow, in the onward march of improvement—of science and the development of the great sources of national as well as individual wealth.

It requires no seer, whose lips have been touched with hallowed fire, to predict the future greatness which awaits us. California is an empire of herself—richer in her mineral resources than all the older States together. Full grown she has sprung into existence, and with the thunder voice of one born to command, she asks to be admitted as a sister State of the Union, or she will stand upon her reserved rights, and bid defiance to those near sighted political gamblers who have refused what she had a right to demand.

We say unhesitatingly, that a more energetic and enterprising people never settled a new country than those who have chosen California for their future homes. Men, who, with Roman firmness, left the family circle and have in reality founded an empire, are men with whose political and inherent rights it is dangerous to trifle. They are men whose voice should have been heard in the national councils months ago, instead of being made the subject of debate, and gambled for as though they were humble supplants for admission.

Look at her bays, rivers and harbors, unequalled in the world, into which are daily pouring all the riches of eastern Asia--possessing every thing necessary to build and maintain an empire by herself! and yet rejected! There is no use disguising the fact—California must be admitted as a sovereign State of the confederacy, or she must of necessity administer the laws and adopt such course of policy as will best protect and secure her own interests and future prosperity

SANDWICH ISLANDS.—Ere many years, or rather months have elapsed, the new empire of freemen on the shores of the Pacific will have regular communication by steamers with these Islands. Already the commerce between this port and the Islands has become profitable, and many of our leading citizens are combining pleasure and business in visiting that balmy land.

Among those who are about to make a tour of the Islands, is our esteemed friend, STEPHEN C. MASSETT, Esq., who is attracted thitherward by sufficient inducement to justify him in leaving a fine and improving business in this city for an absence of several months. We shall miss him greatly from our midst, for there are few among us who have won for themselves truer and warmer regard, for many estimable and companionable qualities, than Mr. Massett; but we doubt not he will be as successful in the objects of his voyage as himself or best friends could desire. We wish him a happy time and speedy return.

RECORDER'S COURT.—Two sailors were examined before Recorder Tilford yesterday, charged with attempting to set fire to the Bryant House. The evidence last evening did not bear upon them in any respect; but as there was another witness to be examined on behalf of the State, his Honor remanded them until this morning.

Officers Sweeney, Meredith and Adams were examined in the case, who, although they brought nothing home to the prisoners, yet showed a degree of vigilance in their duty, that entitles them to the highest public confidence.

THE STATE ASSAYER.—The law appointing this officer has signally triumphed. It is the law of the people, and they have nobly seconded the efforts of the State authorities in doing justice to all true Californians. The amount of dust presented for assay is quite beyond the ability of the department to go through with, unless by labor of both night and day.

CITIZEN PATROL.—A correspondent suggests the necessity of the citizens forming a force adjunct to the police authorities, for the protection of the city from incendaries. We join the writer in commending an increased vigilance on the part of every body; but we suggest whether or not, if certain public vices were suppressed, the primary cause of these dangers would be removed?

Items from Sacramento.

On the evening of the 26th instant the office of the *Placer Times* was on fire; but through timely aid and strenuous exertions of those rushing to the building upon the alarm, the flames were quelled without serious loss. We beg leave to offer our congratulations upon the fortunate escape of the "Times," and wishes for its future prosperity. Its readers have not failed to remark an increased interest in its columns within a few weeks.

An interesting *slave case* occurred there during the past week. Charles, claimed as the slave of Lindal Hays, was brought up on a writ of Habeas Corpus, and discharged, the Judge maintaining that under the Constitution of the State, and under the previously existing Mexican laws, he had no right to detain him.

From the same paper, (27th) we take the following extracts:

$14,000 ROBBERY.—Two miners stopping Saturday night at the Steam Packet Hotel went to bed with 14,000 dollars about their person. Two men slept along side and got up before them in the morning, when the money was nowhere to be found. Officers are on the alert.

DARK DEEDS.—A colored man by the name of Lawrence was married on Thursday evening to Margaret, a woman hired out to service, in this city, by Wm. Marr, who claims to be her master. The ceremony was performed by the Rev. and Hon. Dr. Deal. The happy bride and groom had retired for the night, but very early in the morning were rudely disturbed by the attacks of said Marr upon the house, which were continued until admission was gained, when, by threats and drawing a pistol, he compelled Mrs. Lawrence to go off with him, without the show of any legal authority, and contrary to the laws of the State, and he now holds her in custody and safe keeping, and threatens to carry her away against her husband's consent. We learn that a writ of habeas corpus was refused by Judge Thomas, on the ground of insufficiency in the application, and that doubts are entertained by him as to the right of a black man to obtain such a writ to the detriment of the claims of a white person. In the nuptial affair, sad to relate, it appears that the bride is since disposed to stay with her present claimant, as mistress of his household, propositions having been made and accepted to that effect, but as he offers to resign her upon the payment of $1000. the sincerity of their mutual affection cannot be much commended, while the questionable morality of the whole affair is apparent.

FROM THE MINES.—Having returned last evening from a flying visit to Sutter's Mill, we are enabled to "post" our readers in the matter of mining prospects. At Mormon Island the water still continues too high to work to advantage, miners averaging only about half an ounce per day, although we saw one operator in a little rivulet just above the Island who took out $24 50 on Friday, and had something over an ounce in his pan at 1 P. M., on Saturday. At Coloma, the water was also too high, and miners have turned their attention to the new road which is being cut through from Coloma to Georgetown. There are some seventy men at work upon this road at $8 per day. The sum of $13,000 was recently raised for its completion.

J. T. Little, Esq., has erected a new bridge across the South Fork, a short distance above the Mill, at an expense of near $20,000; buildings are going up about as fast as the mill can saw out the lumber, and there is every indication that Coloma will be among the foremost of our inland towns, situated as it is in the heart of a large and prolific mining region. It is a fact worthy of notice, and one which would astonish most folks, that the receipts from the tolls on the bridge referred to, average $250 per day.

☞ We have been informed that the proprietors of the new town at the mouth of the Trinity, design pursuing a very liberal course of policy to those who wish to embark in mercantile or other business transactions at that place. They design we believe, to give to actual residents lots in good localities for their business. Those who contemplate going there will do well to avail themselves of the generous offers made by the enterprising proprietors. Several vessels are now up for that port, among which are the "Mathew Vasar," Capt. Coffin, and the "Sierra Nevada," Capt. L. B. Edwards.

HONOR TO WHOM HONOR IS DUE.—For Several days past we have been in pretty constant attendance upon Recorder Tilford's court. We have never seen a tribunal which seems to more fully answer public expectation in this particular department of local justice. While mentioning this, we take great pleasure in commending the ability of Mr. LATHAM, the Clerk of this court. His labors exceed those of most other public officers in the performance of his daily duty, and are such as to call forth legal talent as well as require the strictest possible industry.

FOR SACRAMENTO CITY.—The steamer Major Tompkins will commence running between this port and Sacramento City to-morrow. She is a fine vessel, and we think the public will be highly pleased with her accommodations. See advertisements.

☞ A Coroner's Inquest was held yesterday on the body of G. Martin, found dead in Sacramento street. The jury returned a verdict of death from some cause to them unknown.

Brotherly Advice.

The following is a veritable extract from a writer in Boston, to his brother in the "diggings." The moral inculcated is hardly what most men dare espouse, but really there is more truth than poetry in it:

• • • • "I propose to give you a word of good *advice*. I know it is an unpalatable commodity, usually given in the largest quantities by those most niggardly in giving any thing else; but as I have had much experience in life—"know most of the ropes"--"have seen the elephant," from the end of the tail to the tip of his tusks—and, although not yet twenty eight years of age, have lived quite as long as most people of two score; and, moreover, as the postage on this will be prepaid, and you consequently will get the benefit of my experience without a tax on your pocket usually the most sensitive part of a man's heart. Taking, I say, all these things into consideration, you should place a corresponding value upon *my* advice, and ponder over it, in lieu of your daily orisons; it may all be summed up in two magic words—GET RICH! or, as the Bard of Avon says, "put money in thy purse;" give your conscience (always supposing you are burdened with such an incubus while in California) its utmost tension, and let its elasticity put to flight all the absurd dogmas that were taught you at the Sunday school. This is a dollar and cent age, and a matter of fact world: its god is wealth—*all* worship it; the miserably poor only, affect to despise it. *Without* it, you will always be contemned. *With* it, you will be duly honored and happy. *No* earthly comfort can be enjoyed without it—*every* terrestial happiness can be realized with it. "God hates a poor man," and his fellow mortals always keep him down in the lowest depths of the "slough of despond." No matter *how* you amass your wealth, if you do not acquire it by *legally* dishonest means: no one will ask you to go into a detailed account of your success; every body will greet you with a cordial welcome, if you return rich, as surely as they will all give you the cold shoulder, if you return poor. I know all about it, for I have tried both. If you *can't* get rich—(*any* man *can*, if he only thinks so)—in God's name, stay there! don't come home! you will only be far worse off here. If you get tired of digging—"make a claim" on some Government land—live on roots and berries in the meantime, and wait for it to rise in value. You will only have to wait a few years, if you select an eligible location, to make an immense fortune in that way—hundreds have done it before you, and I should do it at once, were I not provided for, for life. I saw your "*girl*" the other night—she will do well enough—but don't let any foolish entanglement with a petticoat swerve you from your purpose—by *success*, you can only hope to enjoy her society or that of any other woman. Poverty will serve only to bring misery and disgrace on both of you. Let the sole end, aim and object of your existence while in California, be the accumulation of wealth. Those that return without it, are justly despised by all; and in the same proportion that they decry the country and its inconveniances and privations, just so are they put down as faint hearted, cowardly, and as having an entire lack of industry, talent, tact, and enterprise; it mars their prospects *here*, too. People have no confidence in the ability of those, who fail to succeed in California. Don't return with a few paltry thousands either! Get a "*pile*" that will permit you to "astonish" and "swell it" over the natives. You can't go into business here with a few thousands—stay there till you amass a sum that will enable you to live "*like a prince*," on the interest alone. Above all, don't be diverted from your purpose by any d—d foolish notions you may have about matrimony! These may all be unpalatable truths—but they are TRUTHS, nevertheless. All of your friends *think* as I do, though perhaps none of them may have the candor and courage to say so. Like me, they would be glad at any and at all times to see—and you may depend upon it, that like me, the thermometer of their welcome will be graduated by your success—they will greet you in just proportion to your "*pile!*" Your *sincere*, though aff bro.,

WILLIAM.

☞ We have received a letter from Capt. Duprey, explanatory and defensive as to the affair on board the Major Tompkins; also, one from the supercargo of that vessel giving some facts not hitherto made public. We shall attend to them to-morrow--meantime will simply add that the "mystery" deepens, instead of being cleared up by these communications. If there are any of the passengers of the Tompkins in this city, we should like to have their statements of the affair. That of Conklin is unworthy of credit by his own showing.

☞ A few days since, an English gentleman presented us a Hobart Town, (Van Dieman's Land,) newspaper, containing a most excellent article upon California. It is a long one, and we have deferred it for some days' past, expecting to be in possession of room to give it entire. As we intend to lay it before our readers, we ask for it an attentive perusal, not only as a response of good feeling from our Anglo-Saxon cousins of the Southern Pacific, but for its literary excellence.

"CLAYTON'S."—There are but few western people who have ever paid their devotion to the shrine of a good table, but have known Clayton. He was burnt out at the late fire, but is in full blast again, on Jackson street, below Montgomery, south side. Go and try him once—he'll risk your calling again.

From Correspondents

CULLOMA, May 18, 1850.

Mr. Winchester—Dear Sir: One cannot but be surprised at the extensive trade of Culloma, and still more at the immense travel passing through the town. At the rate of the present influx, thousands of foot-sore and saddle-worn adventurers must, each month, arrive and depart on their "winding way" to the secret shrines of Mammon. During my short sojourn here what hosts of California Pilgrims have repaired to this chosen spot; to say nothing of those who are attracted hither by their curiosity, for the place where Gold was first discovered in California may well be regarded, by the lovers of money, as classic ground. Still the tide sweeps by, like the ceaseless current of our swollen river. "And still they come," led on by bright prestiges of the golden future, with brave hearts and stout hands to "do and dig" for their cherished wives and sweethearts, for fathers, for daughters, and in some small degree, no doubt, for the "benefit and behoof" of their noble selves. Many causes have contributed towards the building up the business of Culloma. Among these may be reckoned its central position, as well as its immediate vicinity to the richest washings and dry diggings of the northern mines; yet one of the chief elements of its prosperity will be found in the public spirit of the citizens and capitalists. The latter do not lack means to execute what the former have the good taste to plan.

No where have I seen the native energy and enterprise of the "American People" displayed in more vigorous life, or bearing more fruits than here.

A single instance will suffice to show the feeling that prevails with regard to improvements, &c.

It having been represented that the great hill on the road between this place and Georgetown presented serious obstacles to loaded teams; and that teamsters were sometimes obliged to approach the latter place from Sacramento City by the Salmon Falls or some other circuitous and ineligible route; several of our citizens proposed that the people of Culloma should cause a new and direct road to be surveyed and constructed forthwith. Accordingly a meeting was called on the shortest notice, and the sum of ten thousand dollars raised in two hours to further the above mentioned liberal project.

The line of the road has been surveyed so as to obviate the old difficulty and materially to shorten the distance of travel between Sacramento City and the Middle Fork. I understand that the prosecution of the work has been undertaken by J. T. Little, Esq., of this place If so, no further guaranty is necessary that the affair will be pushed to its completion as soon as possible.

To the private enterprise of this gentleman the public is indebted for the handsome structure that spans the river at Culloma, and for other bridges across the North and Middle Forks.

Respectfully, yours, &c., J. G. J.

MEXICO, May 1, 1850.

The expenditure of the government has been limited by congress to the sum of $540,000 a month, and the minister of finances is authorised to negotiate monthly such part of the American indemnification as may not be covered by the duties and contributions.

Five candidates have been proposed for the archbishopric of Mexico, and the election was going to take place in a few days. The income of the archbishop, formerly worth $180,000 a year, only amounts now to about $40,000.

As there is no public burial ground in the city of Mexico, the few cemeteries are private property, but kept in a most shameful manner; the principal one is the Panteon de Santa Panta, but so badly served, that the other day the funeral cart with a large attendance of friends of the deceased had to wait till sunset before the door was opened, and as no vault was prepared for receiving the coffin, they had to leave the same in the gallery till the next day.

The Indians in the State of Queretaro have made another pronunciamiento because they will not pay the contribution of one real per month, still recovered under the title of "for the Texan war."

The committee for the final arrangements about the national debts has proposed to employ the sums remaining from the American indemnification in the following manner, viz.—3½ millions for the foreign debt, 2½ millions for the interior debt and the balance for the general expenses of government, not exceeding $250,000 per month.

VALPARAISO, April 7, 1750.

Letters from Cobija say, that the authorities of this port are acting very arbitrarily against various vessels visiting that port. The French ship Illimani, after having sold her cargo and being cleared at the custom house, was assaulted at the moment she was lifting her anchors. The captain was brought to jail and the ship closely examined, when they found a few boxes of munitions and about one hundred white dresses consisting of jackets and pantaloons. Though the Captain proved that these articles belonged to the inventory of the vessel and were bought with her, protesting against this act of violence, Villamil did not listen to these remarks, menaced to send the Captain to the interior or have him shot, in case he would not declare that said objects belonged to Ballivian, and as the Captain did not even yield to the promise they made him of half the cargo, he still remained in prison.

Don Pedro Duble, a Chilian, and supercargo of the English brig Favorite, Webster, master, had been treated at Cobija in a similar maner, for having gone to Mejillanes for the sake of getting a cargo of guano; the vessel called at Cobija, from whence the Captain intended going by the steamer to Valparaiso to inform Messrs. Cross & Hobson that they had not found any guano. Said Mr. Duble was immediately arrested and brought before Villamil, who abused him in a shameful manner, but after three days imprisonment they allowed him to leave. Captain Webster had also been arrested but menacing with the intervention of the British Admiral, he was set at liberty again.

THE LADIES ARE COMING.—A vessel arrived from Sidney yesterday, with one hundred and fifty passengers, *eighty-six* of whom are females! On a smaller scale, yesterday afternoon, a ship arrived from New York with four passengers, *three* of whom were ditto! At this rate we'll be all right after a while.

NEW DAILY PAPER.

THE PUBLIC BALANCE.

"*Balance*, An impartial state of the mind in deliberating; or a just estimate of the reasons and arguments on both sides of a question, which gives to each its due *weight*, or force and importance.—*Noah Webster*.

THE subscribers will issue a daily morning paper in the city of san Francisco under the above title, on or about the first week in September, devoted, as its name imports, to a just, faithful and impartial review of every thing connected with the interest and prosperity of the people.

It will be unshackled by alliances or dependence upon cliques or parties, and, standing upon a basis of perfect independence, will deal with all questions that arise upon their own merits

In view of the rapidly increasing population of san Francisco and the State generally, and the desire for early information upon local, as well as foreign topics, there exists a large field in California for newspaper enterprise. In entering this field the subscribers will bring with them years of experience in the business, as well as the necessary means for upholding it, and they trust, for success, to the character of their paper and its usefulness to the community.

Michael T. O'Connor will leave san Francisco for New York by the steamer of the first of June, for the purpose of superintending the transmission via the Isthmus of the newest and most improved materials, steam presses and machinery, which, when arrived at san Francisco will compare favorably with any printing establishment on the American continent.

Aware that the usefulness of a public journal is much advanced by extensive circulation, the price of the paper will be but half a dime for single copies, or fifteen dollars per year, when mailed to subscribers in the country.

Newsmen and periodical dealers, and persons desirous of obtaining agencies for the Public Balance, can direct their letters (postpaid) to box 959, Post Office, san Francisco. [clvii tf] M. T. O'Connor & co.

ROUTE to the TRINITY MINES—Gentlemen—Having just returned from the Trinity diggings, we give for the information of the public a brief description of the road: From Sonoma to santa Rosa, 17 miles, thence to the rancho of Moses B. Carson, 18 miles; from Carson's to the head of the east fork of Russian river, 87 miles: thence to the south fork of the Trinity, 30 miles; from the south fork to the Trinity, 32 miles. There is a good wagon road from Sonoma to Russian river, and a plain pack trail over the remainder of the route.

The streams were too high for working the bars when we left, but the miners were in excellent spirits, though averaging only about $15 per day: the large sums realized last year auguring richly for the profits of the present adventurers when the river falls. Provisions were cheap for the Trinity—flour one dollar per lb. The miners are about 110 miles distant from the sea coast. No practicable pack road to the bay had been discovered at the time we left. We neither saw nor heard of any sickness among the miners. It is believed that, owing to the purity of the water and the sea breezes, the Trinity mines will be exempt from fever and ague, and the other diseases common to the mining districts. No evidences of hostility have been evinced by the Indians. Respectfully,
E D Shirland,
J. H. Fine.

"*CONCEPTION IS A BLESSING.*"

But cheer thy heart, and be thou not dismayed,
God and good angels fight on RICHMOND's side,
And RABE falls in height of all his pride.

"RICHMOND in Town once more!"—In fact, he has not been to the Atlantic cities of the United States, and procured a stock of drugs and medicines, which are all beyond *Point Conception*; but he is daily expecting per steamer Chesapeake, a Poet, as is a poet. One

That can read and write, and sing
Of all the *Drugs*, and every thing
That *Richmond* keeps on hand, to sell
At prices that will suit you well.

Doct. Rabe "says to all," come down,
And view the stock he has on hand.
RICHMOND, Forever! says the town,
Has the choicest *drugs* in all the land.

Oh! Doctors! merchants! only stop, and think
What rhymes are coming; what a flood of ink,
When Rabe's poet shall appear, to spoil
His mammoth sheet, three hundred feet in coil,
With tales and details of all past reception,
And drugs, per Chesapeake, beyond "*conception.*" clvii

"RICHMOND'S IN THE FIELD,"

"*DOCTOR RABE IS IN TOWN!!*"

DR. RABE, of the firm of Dr. Rabe & co. begs leave to announce in plain prose, that he has returned from his trip to the Atlantic cities of the United States, and has procured a stock of medicines beyond all conception, and that he has tried to engage a poet to advertise his stock, but finds the task too hard.

Dr. Rabe & co. therefore invite their friends to *come down* to the matter of fact, that they have all the medicine any body else has got, and a *little more besides.*

Only think of a sheet of drawing paper 300 feet long and 4½ feet wide!

Sec. 1. No person who is not a native or naturalized citizen of the United States, or who may not have become a citizen under the treaty of Guadaloupe Hidalgo, (all native California Indians excepted,) shall be permitted to mine in any part of this State, without having first obtained a license so to do according to the provisions of this Act.

Sec. 2. The Governor shall appoint a Collector of licenses to foreign miners for each of the mining counties, and for the county of San Francisco, who, before entering upon the duties of his office, shall take the oath required by the Constitution, and shall give his bond to the State with at least two good and sufficient sureties, conditioned for the faithful performance of his official duties, which bond shall be approved by the Governor and filed in the office of the Secretary of State.

Sec. 3. Each Collector of licenses to foreign miners shall be commissioned by the Governor.

Sec. 4. It shall be the duty of the Comptroller to cause to be printed or engraved a sufficient number of licenses, which shall be numbered consecutively, and shall be in form following, to wit:

"Number , (Date.) A. B., a citizen of , age years, complexion , is hereby licensed to work in the mines of California for the period of thirty days."

The Comptroller shall countersign each of such licenses, and shall transfer them to the Treasurer, keeping an account of the number so transferred.

Sec 5. The Treasurer shall sign and deliver to each Collector of licenses to foreign miners so many of the licenses mentioned in the preceding section as he shall deem proper, and shall take his receipt for the same and charge him therewith. Such Collector and his sureties shall be liable upon his bond for the number so furnished him, either for their return or the amount for which they may be sold; and the moneys collected, as herein provided, shall be paid into the treasury as prescribed in this Act.

Sec. 6. Every person required by the first section of this Act to obtain a license to mine, shall apply to the Collector of licenses to foreign miners and take out a license to mine, for which he shall pay the sum of twenty dollars per month; and such foreigners may from time to time take out a new license, at the same rate per month, until the Governor shall issue his proclamation announcing the passage of a law by Congess, regulating the mines of precious metals in this State.

Sec. 7. If any such foreigner or foreigners shall refuse or neglect to take out such license by the second Monday of May next, it shall be the duty of the Collector of licenses to foreign miners of the county in which such foreigner or foreigners shall be, to furnish his or their names to the Sheriff of the county, or to any Deputy Sheriff, whose duty it shall be to summon a *posse* of American citizens, and, if necessary, forcibly prevent him or them from continuing such mining operations.

Sec. 8. Should such foreigner or foreigners, after having been stopped by a Sheiff or Deputy Sheriff from mining in one place, seek a new location and continue such mining operations, it shall be deemed a misdemeanor, for which such offender or offenders shall be arrested as for a misdemeanor, and he or they shall be imprisoned for a term not exceeding three months, and fined not more than one thousand dollars.

Sec. 9 Any foreigner who may obtain a license in conformity with the provisions of this Act, shall be allowed to work the mines anywhere in this State, under the same regulations as citizens of the United States.

Sec. 10. It shall be the duty of each Collector of licenses to foreign miners to keep a full and complete register of the names and description of all foreigners taking out licenses, and a synopsis of all such licenses, to be returned to the Treasurer.

Sec. 11. Each license, when sold, shall be endorsed by the Collector selling or issuing the same, and shall be in no case transferable; and the Collector may retain out of the money received for each license, the sum of three dollars, which shall be the full amount of his compensation.

Sec. 12. Each Collector of licenses to foreign miners shall, once in every two months, and oftener, if called upon by the Treasurer, proceed to the seat of government, settle with the Treasurer, pay over to that officer all moneys collected from foreigners not before paid over, and account with him for the unsold licenses remaining in his hands.

Sec. 13. If any Collector shall neglect or refuse to perform his duty as herein provided, it shall be the duty of the Comptroller, upon receiving a notice thereof from the Treasurer, to give information thereof to the District Attorney in whose district said officer may have been appointed, who shall bring an action against such Collector and his sureties upon his bond, before any court of competent jurisdiction; and upon recovery had thereon, the said District Attorney shall receive for his services ten per cent. upon the amount collected, the balance to be paid by him into the treasury in the manner provided by law for like payments.

Sec. 14. It shall be the duty of the Governor, so soon as he shall have been officially informed of the passage of a law by the United States Congress, assuming the control of the mines of the State, to issue his proclamation, requiring all Collectors of licenses to foreign miners to stop the issuing of licenses.

Sec. 15. It shall be the duty of the Governor of State, immediately after the passage of this Act, to have two thousand copies each, in English and Spanish, printed and sent to the mining districts for circulation among the miners, and also to have the same published for thirty days in the Pacific News at san Francisco, and in some newspaper at Sacramento City and at Stockton.

Sec. 1. No captain or master of any vessel, or any other person or persons shall knowingly or willingly import, bring or send, or cause or procure to be imported, brought or sent, or be aiding or assisting therein, into this State, by land or water, any felon, convict or person under sentence of death or transportation, or any other legal disability incurred by a criminal prosecution, except for treason, or who shall be delivered or sent to him from any prison or place of confinement in any place without this State.

Sec. 3. This act to take effect and be in force from and after thirty days' publication of the same in the "Pacific News."

EMPIRE CITY.

FOR Sonorian Camp, Wood's Diggings, Sullivan's, Hawkins's and Don Pedro's Bars, head waters of Tuolumne, Mercedes, and Mariposa Rivers; also, to head waters of san Joaquin and King's River FREIGHT OR PASSAGE TO EMPIRE CITY, TUOLUMNE. DURFEE & TOWNSEND have established a daily line of sailing vessels from san Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the san Joaquin, and is not only accessable by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, san Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Cresent city, and adopt one quite as appropriate, if not so beautiful.—Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southensterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M Rowlett, Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E Perrine, J. B. Lattimer.

TO THE PUBLIC.

SEMI-WEEKLY PAPER AT MARYSVILLE.

THE UNDERSIGNED is about to establish a semi-weekly newspaper at the town of Marysville, under the title of the MARYSVILLE HERALD. In politics its position will be independent. Bound to none, it will lend what influence it may have to all such measures as the necessities of the State may demand, without regard to their origin. It will aim to be a medium of correct information from the Northern mines, in the very heart of which it is to be published; while, as an instrument by which men of business in San Francisco and Sacramento city, can make themselves known to their REAL customers, it will have no superior in California, for its circulation will be confined almost wholly to the miners, upon whom the merchants and dealers must to a large extent rely for their success. For the miners, who are unabe to obtain papers from the Atlantic States, full abstracts of all important sayings and doings at home will be given, together with whatever else occasion and fitness may demand. It is proposed to issue the first number on or about the first of June.
